<u>Lowlands</u>	
Light & Fresh	
The terrain of the Lowlands is characterized by rolling fields which are ideally suited to growing grain whisky. The softer landscape is mirrored in the region's single malts which tend to be lighter in both colour & body, than those of the Highlands. With little or no peat used in the drying of the malt, the whiskies distilled here are generally fresh & light, fragrant & floral with cereal flavourings.

Islay	
Peaty & Maritime	
Sitting amongst the Inner Hebridean Scottish Isles, are the malt whisky producing islands of Islay & Skye. Rugged, windswept & barren, the island landscapes generally produce single malt whiskies with strong peaty, maritime aromas. The Island malts are unmistakably powerful, bursting with flavour, from the recognised smokiness apparent in almost all offerings, to the more surprising notes such as the black pepper found in Talisker.	
Ardbeg, 10 years. An initial moderate & clean sweetness is rapidly followed by a mouthful of deep peat notes, with tobacco smoke & strong espresso coffee, which then gives way to treacle sweetness & liquorice.
