<p><b>Gin.</b> <i>Synonymous with British culture, Gin is now enjoyed worldwide &amp; is most commonly drunk in a Gin &amp; Tonic or a Martini. Whilst Juniper must be the dominant flavour, other botanicals can be used to make gin, &amp; there is no limit to what can be used – these often include anise, liquorice root, saffron, cinnamon, cassia bark &amp; orris root. The term “gin” might derive from either the Dutch “jenever” or the French “genièvre” – both of which mean “juniper”. Gin can be made with any neutral spirit, so production methods can vary greatly.
