### BALANCED BLENDS 27

Welcome to our world of whisky. Unlike the other flights that are based on Single Malt Whiskies this introductory flight focuses on Blended whiskies. These whiskies are expertly crafted, sometimes overlooked when compared to a Single Malt, however they can certainly hold their own and when given the chance offer a different experience to your whisky tasting journey. For those with a sweeter palate and like a smoother lighter dram, this flight is perfect for you.

### PURELY PEATED 48

Focusing more on the flavour profile associated with West Coast Islands of Scotland and the region known as the Island Region this flight shows the contrasting coastal flavours and a style of smokiness. From light, fruity & delicate to peppery, smoky & robust the islands offer your taste buds an exciting journey worthy of the wild West Coast of Scotland. Jura and Raasay from their respective islands, Kilchoman from Islay and and to finish - an inspired malt from closer to home. Cù Bòcan is a peated expression from local distillery Tomatin which is lightly peated and a great alternative to those coastal drams.
